### **New Plier & Jaw Type Filter Wrenches**

*LX-1807, LX-1815, LX-1816, & LX-1817*

**Fort Mill, SC** - The new Lumax plier and jaw type filter wrenches allow for a wide range of oil filter applications. Lumax filter wrenches provide greater comfort and better gripping force for stuck on filters. The filter wrenches are blackened for resistance to rust oxidation and corrosion for a longer working life.

The LX-1807 is a jaws type offset oil filter wrench that fits filters from 2-1/4 in. to 4 in. (57mm-102mm). It's a spring loaded wrench that allows for a wider range of filter applications. The LX-1807 is made from high quality, steel construction with a comfortable cushion grip when clamping down on the filter. The open-ended band allows for easy access to multiple filter applications.

The slip joint oil filter wrenches (LX-1815, LX-1816, & LX-1817) made from high carbon drop forged steel construction for strength and durability. The slip joint handle allows for a greater range to grab the filter. The slim and adjustable design fits where other handled wrenches would not. The dual-handle allows for better leverage to bear down hard to remove stubborn tight filters. The filter wrench is blackened for resistance to rust, oxidation, and corrosion that will provide the filter wrench a longer life.

The LX-1815 fits filters from 2 in. to 5 in. (50mm-127mm).

The LX-1816 fits filters from 2-3/4 in. to 4 in. (70mm-102mm).

The LX-1817 fits filters from 3-5/8 in. to 6 in. (92mm-152mm). Popular applications for this filter wrench is to stand up to the high torque needed to remove filters from trucks, tractors, and other heavy equipment. It fit most truck and tractor oil filters including Case, Caterpillar, Cummings, Detroit Diesel, John Deere, Mack and other heavy equipment.

### **About Lumax**

Lumax has proudly served the professional Automotive, Industrial, Agricultural, Hardware, and Retail Markets with quality lubrication products for over two decades. As an industry leader, Lumax continues to grow by building its relationships and business with a strong foundation in World-Class products, customer service, and value.
